

::: Cleaner Oxalic acid

Description:

Powerful cleaner that effortlessly refreshes yellowed gelcoat, plastic and painted surfaces. Can also be used on wood to restore its original colour. Contains an acid that purifies the surface.
Available in 500 g pack.

Application:

Suitable for plastic and lacquered surfaces such as yellowed gelcoat, lacquers and other plastics. For long-term protection, a follow-up treatment with High Gloss Finish is recommended.

Particularly suitable for cleaning the edges around an exhaust and anchor winch on a boat or for cleaning the air-water line in a swimming pool.

Data on delivery:

Color:	off-white
Viscosity:	not applicable
Mass density:	approx. 1,10gr/cm ³
Shelf life:	unlimited in closed container
Consistency:	powder

Technical data:

Consumption:	10 m ² /500ml
Shore:	not applicable

Application:

Mix Oxalic Acid Cleaner with water in a 1:100 ratio until the powder is completely dissolved. Then apply it evenly to the surface with a sponge. Rinse the surface thoroughly with plenty of water afterwards. Take into account and possible pH change of the pool water, if used at a pool edge.

Safety:

Contains oxalic acid. Harmful in contact with skin and if swallowed. If this happens, consult a doctor immediately and show them the packaging or label. Keep out of reach of children. Always wear suitable gloves and protective clothing.

Cleaning agent for tools: soap and water.
