Face mask Starmask with dust and solvent filter (A2P2R)

Processing:

Step 1: Prepare the surface well; dry, grease-free, as smooth as possible.

Step 2: Apply a coat of epoxy Primer Fast.

Step 3: Thoroughly mix the Flexo Pur casting resin, pour it out and spread it with the flat trowel to form an even layer.

Step 4: Apply the FlexoPur Top ZG in one layer.

Consult our extensive sheet on casting floors for more details. You will find this information on our website. Also watch our instruction video about the installation of a casting floor.

Safety:

Always wear appropriate protective clothing and gloves. Avoid prolonged skin contact. Cleaning agent M for tools.
