

:: CREAKIT® DECORATIVE PLASTER REFILL

Description:

Refill pack containing decorative plaster for upcycling and renovating objects.

Application:

For upcycling and renovating decorative objects and furniture. The Decorative Plaster Base is off-white and should always be coloured. This can be done using the VSure decorative plaster colourants from the CREAKIT® Upcycling – Color range. Available in 5 trendy colours, these colourants are suitable for easily colouring your Decorative Plaster Base.

Supply details

Kit contents:

- 300 g Decorative Plaster Base
- Wooden mixing spatula
- Nitrile gloves

Processing:

Add the entire contents of the decorative plaster pigment to your Decorative Plaster Base to obtain the colour indicated on the packaging. If you add less pigment, the colour will be less intense and therefore lighter. This also allows you to create different shades.

Mix thoroughly using a wooden spatula. Make sure to scrape well along the sides with the spatula so that the colour is thoroughly mixed into the base.

Apply the product with a brush or sponge, depending on the texture you wish to achieve.

Safety:

Always wear suitable protective clothing and gloves.

Cleaning agent for tools: water and soap.

For hands: water and soap.
